### ANNOUNCEMENTS

**Responses to the Amendment to Poland’s Act on the Institute of National Remembrance**

**From the Association of Holocaust Organizations (AHO):** On July 8, 2018, the Board of Directors of the Association of Holocaust Organizations called upon the government of Poland to revoke its controversial law regarding Holocaust research and stated that amending the law to remove criminal prosecution while leaving open the possibility of civil procedures is not sufficient.

The law continues to place the burden of proof on Holocaust survivors, scholars and educators. This is not an acceptable solution and any attempt to inhibit historical research or threaten open expression on the Holocaust in Poland must be rejected. Therefore the Board shares the concerns raised by institutions such as Yad Vashem, the Simon Wiesenthal Center and the United States Holocaust Memorial Museum, as well as experts such as Prof. Yehuda Bauer who have all pointed out that historical facts cannot be legislated. The AHO Board also urges Poland’s government to take immediate steps to counter the antisemitism that has erupted in the wake of the controversy surrounding the law.

The Association of Holocaust Organizations is an international network of over 370 organizations and individuals working for the advancement of Holocaust education, remembrance and research.

**US Holocaust Museum Statement on Amendment to Poland’s Act on the Institute of National Remembrance**

**Wiesenthal Center:** Poland Should Rescind Law Criminalizing Holocaust Research, Not Merely Drop Penalties
**Appeal for assistance from the British Broadcasting Company (BBC) for those in the UK:**
The BBC’s long-running children’s news programme, Newsround, is planning a documentary about the Holocaust. The programme is looking for a child to share their family stories, tracing back their relatives’ lives during the Holocaust. The child will learn about the significance of what took place and why it’s important for future generations to always remember what happened during this time.

- The child needs to be 12 – 14 years old approx. and happy to be filmed in the UK and abroad on this subject.
- They should have one or two relatives with different stories to tell, whose lives we can trace from childhood through the time of the Holocaust.
- Ideally, their relatives will have documents from the era that we can film (e.g. photos, passports etc).
- The child (plus a parent or grandparent) must be available to travel in the first two weeks of September (this is to be confirmed). They will travel to the countries their relatives were from.
- The child must not have visited the countries before and be curious to find out more about their family history.

If you - or anyone you know – are interested in taking part, please contact us before Monday 23rd July: newsroundplanning@bbc.co.uk

**FYI...** The [International Tracing Service archive](#) contains over 30 million records related to the documentation of Nazi persecution and liberated survivors of the Holocaust. While some of the records contained in the archive can be understood with little background knowledge, a large number of them are difficult to understand without contextual information. International Tracing Service in Bad Arolsen staff members have developed a new series of online e-guides to decode some of the documents. The first guide aims to assist those looking at concentration camps.

Not every single type of concentration camp document is decoded, but the information is a rich and valuable resource in understanding the mechanics and bureaucracy of camp life. Moreover, the e-guide’s ability to help us understand the significance of each card has the potential to help users gain a fuller understanding of the day to day life of camp inmates.
The goal is to extend this resource to cover documents connected to Displaced Persons and forced labor, for availability in winter 2018/19 and summer 2019 respectively. [Read more](#)

FYI... Call for documents related to Kristallnacht (The November Pogrom)
To coincide with the 80th anniversary Kristallnacht, the Wiener Library’s autumn 2018 exhibition will examine the November Pogrom. We are seeking original personal document collections from Jewish refugees and survivors who may have witnessed Kristallnacht, including diaries, letters, photos, camp-related documents, emigration papers, and others related to the events of 9-10 November 1938. The documents, which can either be loaned temporarily for display or donated to the Library to enrich our collections, may be shown in the autumn exhibition. Please contact Christine Schmidt (cschmidt@wienerlibrary.co.uk) or Barbara Warnock (bwarnock@wienerlibrary.co.uk) for further information.

FYI... Documentary filmmakers Cathy Fischer and Shaleece Haas are working on a film about grandchildren of Holocaust survivors (3Gs) who have tattooed their grandparents’ concentration camp numbers on their bodies. Cathy is descended from three Holocaust survivors and several members of her extended family have tattoos that mirror their grandparents’.

If you know of any descendants that bear their relatives’ numbers in a tattoo, please invite them to reach out to the filmmakers at tattoo3g@gmail.com. Cathy and Shaleece can share more about the project and answer any questions. www.facebook.com/3Gtattooproject/
