RESTITUTION / REPARATIONS

From the Claims Conference: the annual maximum income for eligible recipients has been raised from $25,000 to $49,850 per annum. It is important to note that the calculation of income excludes all employment and government provided pensions, effectively meaning that the cap is based solely on earned income, (if the Holocaust survivor still has a job), or investment income. Details regarding the calculation of income can be found here: http://www.claimscon.org/what-we-do/compensation/background/article2/comparable-payments/

The maximum allowable assets held by the recipient has been raised from $500,000 to $997,020. This amount excludes the value of the principal residence of the survivor. If you need any additional information, the local currency equivalents can be found on the Claim Conference website: http://www.claimscon.org/what-we-do/compensation/background/article2/income-and-asset-limits/
