Shoah Name Wall Memorial in Vienna

A memorial is being erected in Ostarrichpark in memory of the Jewish children, women and men from Austria murdered in the Shoah.

The Documentation Archive of the Austrian Resistance (DÖW) has spent decades researching the names and data of the Austrian Holocaust victims. The resulting database of victims' names forms the basis of the monument. In order to ensure that all names on this monument are taken into account, we kindly ask relatives and descendants to consult the victim database, which can be viewed on the homepage of the DÖW.

The Documentation Archive asks relatives and descendants of Austrian Holocaust victims to contact the DÖW directly with their information: office@doew.at.

FYI… From the US Holocaust Memorial Museum: Virtual Teacher Training Brings Unexpected Opportunities

FYI… From the Johannesburg Holocaust & Genocide Centre, South Africa. Survivor testimonies are first-hand accounts from individuals who had lived through the Holocaust or genocide and their stories help students to understand and empathise more deeply with the human (and inhuman) aspects of mass atrocities. They each offer a unique perspective on human behaviour and the resilience shown in the face of persecution. These stories have been selected by educators at the JHGC to support the teaching of the Holocaust and genocide and to help learners engage with these difficult histories. https://soundcloud.com/user-858426360

The Descendants Series follows the stories of individuals whose family members survived the Holocaust and genocide.

FYI… The Chhange Annual Colloquium included 16 virtual workshops, five of which were led by local Holocaust Survivors. These workshops cover Hidden Children, the Kindertransport, the St. Louis, the Bielskis, art, and a second-generation testimony.
